A WILD DEER STEPPED IN HIS Mouth,-One of the most peculiar accider ts ever heard of happened to a colored man near New Store a few days ago. Ed Jones took his gun and set out for a day of sport. He was not looking for large game, but he had not been in the woods long before he saw an immense deer coming at a tremendous rate of speed immediately toward him. He at once fell on his knees, preparatory to a shot, and when the deer was within twenty feet of him fired and missed his sim. The deer had sequied tremendous momentum that it could not ch ck itself, and with the next leap landed upon the bunter. It knocked him down and bruised him badly upon the breast with one hind foot, the other going into the negro's mouth, knocking out a number of teeth, tearing a part of his gums away, and passing down his throat. The whole thing was over it an instant, but when the darky can e to, the deer was gone.—[Richmord] Dispatch.

BY ELEVATING THE QUALITY of our coal we lower the price in economy of consumption. Consumers will find that it is cheaper to use our high grade Lee Coal, that has been screened and freed from slate and stone, than that of an inferior grade. It gives more heat, less ashes and burns longer than any other coal, and our prices are as low as any. Coal and Wood under cover.
